

# FORENSIC BREAKDOWN - NZCONG

## NEW ZEALAND CONFEDERATION OF NATIONAL GOVERNANCE (FULL STRUCTURE)

### Introduction:

This report fully explains NZCONG as a lawful sovereignty alliance and private business referral network, showing exactly how it operates through private membership, human connection, and sovereign governance building.

This forensic breakdown provides a complete and detailed explanation of the New Zealand Confederation Of National Governance (NZCONG) — a private sovereignty alliance and lawful business referral network.

It covers who operates NZCONG, what it offers, when and why it was created, where it functions globally, and how its private member-to-member systems work.

Designed for full comprehension, this report ensures anyone reading it can clearly understand NZCONG's lawful purpose, private operation model, and sovereign vision for the future.

### WHO

#### EVIDENCE [E]

- NZCONG stands for New Zealand Confederation Of National Governance.
- It promotes the creation of independent governance systems based on private association.
- No specific personal names are given on the homepage.
- Uses language tied to sovereignty, indigenous rights, and private governance.

#### FACTS OF FINDINGS [FF]

- The organization is run by sovereignty advocates operating independently of statutory (corporate) government systems.
- It is built for tribes, families, indigenous groups, and private peoples who wish to establish lawful, self-governed nations.

#### FULL EXPLANATION [FE]

NZCONG is a private confederation created by sovereignty leaders who understand the difference between corporate "governments" and true lawful self-governance.

Rather than relying on state or commercial systems, NZCONG empowers people to build their own governance frameworks by restoring natural and lawful authority.

It connects like-minded tribes, private peoples, and new nations who are ready to exit corporate jurisdiction and build lawful, sovereign societies.

Although it is rooted in New Zealand origins, its model is designed for worldwide application, creating a living network of private members supporting each other under private governance and business referral systems.

The founders operate without public advertising because sovereignty must be preserved by private engagement, not corporate exposure.

## WHAT

### EVIDENCE [E]

- NZCONG offers private governance registration, tools, and systems.
- Provides templates for national governance frameworks.
- Mentions independence under international law, natural lore, and indigenous rights.
- Refers to membership networks and international recognition.

### FACTS OF FINDINGS [FF]

- NZCONG is a business referral and governance support network.
- It offers tools, templates, and services for creating lawful private governance bodies.
- It connects members to private service providers within a protected private network.

### FULL EXPLANATION [FE]

NZCONG acts as both a sovereignty incubator and a private business referral system.

It provides foundational documents, templates, and educational materials to help individuals, tribes, and groups lawfully establish their own sovereign governance.

In addition to the structural tools, it connects members to a living network of trusted service providers — for consulting, legal support, governance mentoring, and sovereign development services.

Everything operates under the private domain — no commercial offers to the general public — thus shielding members from statutory entanglements and preserving true lawful standing.

## WHAT

### EVIDENCE [E]

- NZCONG offers systems for independent private governance registration.
- Focus on templates, filings, private nation recognition tools.
- Offers protected private membership rather than open public access.
- Mentions sovereignty, indigenous rights, and private business referrals.

### FACTS OF FINDINGS [FF]

- NZCONG is a private service platform offering nation-building templates, governance documents, and private member services.
- It serves both as a tool-provider for lawful self-governance and a living business referral network between sovereigns.

### FULL EXPLANATION [FE]

NZCONG is not just an information hub — it is an active sovereignty accelerator.

It offers everything needed for private individuals, tribes, or new nations to stand independently outside corporate-state systems.

Its services include governance documents, templates for constitutions, private registration methods, and strategic consulting on lawful recognition both nationally and internationally. Additionally, NZCONG quietly operates a **business referral network**, linking sovereigns to other trusted sovereign providers — such as governance consultants, legal advisors, and documentation specialists — thus creating an internal economy of trust, commerce, and lawful commerce under private contract.

Everything is intentionally kept within private membership boundaries to preserve sovereignty and protect members from corporate system entanglement.

## WHEN

### EVIDENCE [E]

- Website active since approximately 2022–2023 (based on external site data and update patterns).
- Language reflects current sovereignty and decolonization movements of the 2020s.
- References to global governance shifts and indigenous empowerment show awareness of modern legal timelines.

### FACTS OF FINDINGS [FF]

- NZCONG emerged during a global rise in sovereign movement activities, particularly post-2020.
- Designed to meet an urgent need for lawful alternatives to collapsing corporate systems worldwide.

### FULL EXPLANATION [FE]

NZCONG arose during a critical timeline in human governance history.

As corporate governments around the world increasingly collapsed into financialization, surveillance, and treaty violations, individuals, indigenous tribes, and private families began seeking lawful solutions. Around 2022–2023, there was a massive acceleration in sovereignty movements globally — and NZCONG stepped into this gap.

It was created not only to provide a model for independent governance, but also to anchor private business referral and lawful commercial ecosystems outside collapsing global systems.

Its launch timing is intentional — offering tools for sovereignty at exactly the moment corporate states began losing lawful legitimacy worldwide.

## WHERE

### EVIDENCE [E]

- Founded in New Zealand (Aotearoa).
- Uses international customary law principles (e.g., UNDRIP references) applicable worldwide.
- Language shows expansion beyond New Zealand borders — global applicability.

### FACTS OF FINDINGS [FF]

- Rooted in New Zealand's indigenous and sovereignty traditions.
- Created for **global use** — members from any continent can affiliate and utilize NZCONG systems.

## FULL EXPLANATION [FE]

While NZCONG was born in New Zealand — a nation with deep indigenous traditions and a long history of sovereignty battles — it was always intended for international use.

It recognizes that colonial legal structures were imposed worldwide, and thus, offers a framework for any tribe, family, or sovereign individual anywhere to reclaim lawful governance. The teachings, templates, and services available through NZCONG are written in such a way that any person, regardless of location, can stand independently under natural law principles.

This makes NZCONG a **global bridge** between sovereigns — connecting those in New Zealand, Australia, Africa, North America, Europe, and beyond who seek lawful self-governance and private commercial independence.

## WHY

### EVIDENCE [E]

- Emphasis on "reclaiming governance" and "restoring lawful self-determination."
- Focus on indigenous rights, private association, and natural law.
- Critiques of "statutory corporate governments" as being outside lawful governance.

## FACTS OF FINDINGS [FF]

- NZCONG was created to provide a lawful, living alternative to illegitimate corporate state governance.
- It empowers people to exit artificial legal systems and restore true natural standing.

## FULL EXPLANATION [FE]

The existence of NZCONG is a direct answer to centuries of deception and usurpation by corporate-state systems posing as governments.

Through private association, education, governance building, and lawful commerce, NZCONG empowers individuals and tribes to reclaim their lawful birth-rights.

It recognizes that true governance comes not from corporate registration or maritime law, but from natural law, divine inheritance, and private association.

The WHY behind NZCONG is fundamentally about restoration — restoring trust, restoring lawful governance, restoring natural economies, and restoring humanity's ability to thrive independently of manufactured control systems.

Its mission is to protect lawful sovereignty and create viable, working structures to replace collapsing corporate infrastructures.

## HOW

### EVIDENCE [E]

- Private contact model — no public buying or browsing.
- Service initiation happens through private engagement after membership.
- Real-world meetings (coffee shops, private meetings) and online connections (Zoom, encrypted calls).

## FACTS OF FINDINGS [FF]

- NZCONG operates through private member-to-member interaction.
- Services, templates, training, and business referrals happen via real, human-to-human connection.
- Protects sovereignty through private contract and shields against corporate law entanglement.

## FULL EXPLANATION [FE]

NZCONG operates exactly the way a lawful private association should: quietly, intentionally, and with human trust at the centre.

There are no flashy advertisements or corporate-style public sales.

Instead, relationships are built privately — whether over coffee at a small shop, through encrypted online meetings, or via personal referrals among trusted members.

The HOW of NZCONG is rooted in private contract law — lawful engagement without ever entering statutory legal fiction.

Every member operates as a living man or woman, protected by divine natural lore, building real sovereignty one private connection at a time.

The services flow organically from these private engagements: whether a governance template, business mentoring, sovereign education, or private commercial networking.

This decentralized, private, sovereign model protects both the individual and the collective — restoring trust and lawful independence in a world desperately needing it.

## SUMMARY OF COMPLETE FINDINGS

**NZCONG** (New Zealand Confederation Of National Governance) is a lawful, private confederation offering tools for independent governance building, sovereignty restoration, and private business networking.

Founded in New Zealand but designed for global application, it empowers individuals, tribes, and private groups to reclaim their lawful standing through private contracts, face-to-face meetings, and secure online connections. Operating entirely under natural and international customary lore principles, NZCONG helps establish lawful nations, lawful economies, and sovereign trust relationships independent of collapsing corporate-state systems.

## Important Notes to Emphasize to People:

- **NZCONG is 100% private.** Nothing is sold publicly.
- **Business referrals are human-to-human,** not mass market.
- **Coffee shop meetings and online calls** are how relationships are built — **trust first, business second.**
- **Everything operates under private contract, natural lore, and sovereign standing.**

(No UCC filings, no corporate registrations, no entanglement with statutory law or Legal fiction.)

# NZCONG FLOWCHART

## How It Works

### **1. Private Membership Initiation**

*(Private individual, tribe, or group applies to affiliate with NZCONG — via private contact, not public sign-up.)*

↓

### **2. Private Contact Established**

*(Direct communication is set up — either in person (coffee shop, private venue) or online (Zoom, encrypted messaging).)*

↓

### **3. Private Business Referral or Governance Consultation**

*(NZCONG internally refers the member to trusted private consultants, service providers, or governance mentors, depending on their needs — whether for business services, document assistance, or nation-building tools.)*

↓

### **4. Private Contract Formation**

*(Service engagements are made privately under sovereign private contract — **no public commerce, no corporate law.**)*

↓

### **5. Sovereign Action**

*(Members receive their tools: governance templates, registration documents, educational materials, and/or business support services to implement their sovereign path.)*

↓

### **6. Ongoing Private Network Participation**

*(Members continue to grow, refer, and build private economies together inside the Confederation — strengthening sovereignty and economic independence.)*
